

**The General State Archives of Greece (G.S.A.) organize**  
**the D.L.M. FORUM FOUNDATION Members' Meeting**  
**on 10<sup>th</sup> and 11<sup>th</sup> of June 2014**  
**at the Hellenic Ministry of Foreign Affairs**

“2014” constitutes a very important year for the General State Archives of Greece (G.S.A.) because one hundred (100) years are completed since their establishment. Therefore, it is a very happy coincidence that the centenary concurs with the organization of the D.L.M. FORUM Members' Meeting under the auspices of the Hellenic Presidency of the Council of the European Union.

The D.L.M. Forum Spring Members' meeting and A.G.M. will be held at the Hellenic Ministry of Foreign Affairs in Athens, on 10th and 11th of June. The meeting will feature a lively programme of presentations and debate with news from projects such as E-ARK, MoReq, records, archives, electronic documents and information governance generally.

The D.L.M. Forum was founded by the European Commission in 1996, with the support of the public archival authorities of the Member States of the European Union. It is a broader and vibrant community of interested stakeholders in the field of archives (historic and active) and document lifecycle management throughout Europe.

It also constitutes an independent, not-for-profit body, which accepts members from the public and private sector and is one of the main European centers, which deals with specific scientific matters relating to Records Management, Information Governance and E-Government in European, and international level, as well as with the definition of guidelines and standards (MoReq specifications) relating to the area of electronic records' management.

The General State Archives of Greece are an active member of the D.L.M. Forum Foundation, participating in its meetings with related papers and lectures. Happy coincidence is also the fact that this year the D.L.M. Forum celebrates 20 years since its establishment.
